#3 REGULAR PIGEON MIX

Basic mix, specialty formulated blend to hold birds over the winter months.

Western Wheat, small red corn, Milo, Canadian White Peas, oil.

ROLLER MIX

Armstrong Roller mix is the most commonly used mix with show birds. It contains no corn and can be used in hot weather conditions when birds do not need energy that corn provides. Very popular with fanciers who prefer to mix in their own corn as weather conditions change.

Western Wheat, Red Milo, Small White Peas, White Millet, oil.

Armstrong Pigeon Feeds

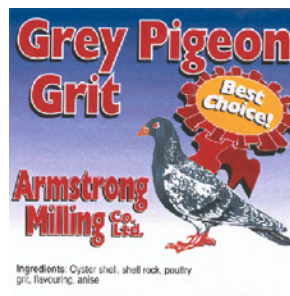

CONDITIONER MIX

The most versatile mix we make. Conditioner mix is designed to be fed to all breeds of pigeons. It can be used as booster to birds in breeding season. Popular as a clean out mix when birds return from a long distance race. Excellent in improving feather quality in show birds before an exhibit. Conditioner mix was not formulated to be fed as a sole source of diet, but only as a supplementary diet to aid in conditioning.

Hard Red Wheat, Milo, Peas, White Millet, Red Millet, Maple Peas, Vetch, Buckwheat, Safflower, oil, Flax.
